

A very successful ending was

V INTERNATIONAL WORKSHOP COURSE: CARBON MARKETS

CARBON PROJECT AS A NEW BUSINESS OPPORTUNITY

With the presence of prominent specialists from various institutions involved in the carbon market, was successfully completed the **V International Workshop Course Carbon Market: Carbon Projects as a New Business Opportunity** developed on October 14th, 15th and 16th at Hotel Melia.

The course aim was to disseminate the Clean Development Mechanism (CDM) under Kyoto Protocol and voluntary markets as an environmental business opportunity enabling public and private companies and various economic and productive sectors of the country to access funds or environmental social responsibility, improving the company's corporate image.

L.to R.: Rebeca Arias (UNDP), Julia Justo (FONAM), Antonio Brack (MINAM) y Miriam Hinostroza (UNEP RISOE).

International institutions such as TFS Green, KFW, ONF Internacional, TÜV SÜD, Social Carbon, Endesa Carbono, The Gold Standard Foundation, CCBA, Ministerio del Ambiente de Colombia, WWF, Less Carbon, BNP Paribas, Ecoresources, DEUMAN, DNV, EEA FM, Suez Energy – ENERSUR, ICONTEC, Proyectos Globales S.A, gathered in this important event held for the fifth consecutive year with support from Ministry of Environment, UNDP and UNEP Risoec Center.

A total of 37 experts from home and abroad, participated as exhibitors and more than 200 participants attended the Course and Matchmaking along the three-day event.

The **V International Workshop Course Carbon Market**, developed an interesting agenda that included issues about the Carbon Market and Prospects, CDM Energy Sector, CDM Forestry Sector, Voluntary Market, REDD Mechanisms, Carbon Footprint, Legislation, Funding, Programmatic CDM. It also included a matchmaking session between carbon firms and project developers.
